

Inland Technology Incorporated

Pollution Prevention By Design

IT-21D™

Deployable Partswasher

The IT-21D™ is designed from the ground up for ease and safety of deployability.

FEATURES:

- Designed for use with DOD approved Environmentally Compliant Solvent (ECS) **BREAKTHROUGH®** for partswashing and weapons cleaning.
- Unique design contains solvent in its own shipping container.
- Uses Inland Technology's **EDGE TEK™*** filtration technology to maintain solvent effectiveness over extended periods of time.
- Designed to be powered by maintenance generators or any normal 120V 60hz electrical source.
- This light, compact unit is mounted on sturdy lockable wheels for enhanced portability.

Specifications:

- Inside Tub Dimensions 21"L x 15"W x 6¼"D
- 165° Fusible Link Fire Cover
- Flow-thru Cleaning Brush
- Large Casters (2 Locking)
