

Inland Technology Incorporated

Pollution Prevention By Design

IT-25D™

The **IT-25D™** is a one of a kind, fully mobile weapons cleaner / partswasher built to meet the rigors of field maintenance operations. This system solves the challenges of how to clean weapons or parts around the world in an environmentally responsible way. The **IT-25D™** utilizes Inland Technology selected family of Environmentally Compliant Solvents (ECS), **BREAKTHROUGH®**, **SKYSOL®**, or **SKYSOL® 100**. The **IT-25D™** features in-line filtration to .1 micron nominal using the Inland Technology **EDGE TEK™* Micro Filter System**, permitting near-full reclamation of the ECS. The **IT-25D™** is completely self-contained and operable using a generator, inverter, or using fixed base 120v 60hz power. The **IT-25D™** is built with the mobile user in mind; its small compact size allows it to be used or stored in the smallest areas in a vehicle or on a shelf waiting for use.

IT-25D™ WEAPONS CLEANER / PARTSWASHER

Dimensions:

Overall Outside	35"L x 23"W x 8 1/2"H
Inside Tub	32"L x 20"W x 8"D
