

INLAND TECHNOLOGY INCORPORATED

Pollution Prevention by Design

IT-95™

Heavy Duty Agitating Partswasher

GSA Advantage

Contract Number: GS-07F0156N

KIT951CS165G

- Designed for automated cleaning of large parts using Inland Technology's **BREAKTHROUGH®** or **SKYSOL®** Solvent
- Hands free auto lid pneumatically opens and closes for easy load and unload
- "V" notched heavy duty steel roller guides with sealed bearings for smooth, trouble-free operation
- Adjustable flow auxiliary pump with flow-thru parts brush for thorough final cleaning
- Large, 165 gallon solvent capacity
- Heavy duty, 250 lb. load capacity
- Air and electrically operated
- Comes complete with **EDGE TEK™** Micro Filtration System for prolonged solvent life
- Variable speed agitation platform
- Cylinder cover protects user from moving parts and pinch points
- As a GSA Kit, the KIT951CS165G, includes the **IT-95™** along with a case each of **EDGE TEK™** and Resin filters and 165 gallons of **BREAKTHROUGH®** solvent, which allows for a complete system with ease of ordering
