CITRA-SAFE[®] (Deodorized)

Developed for use in the aerospace industry, **CITRA-SAFE[®] (Deodorized)** is a low-volatility substitute for Methyl Ethyl Ketone (MEK), Trichloroethylene, Toluene, and blends of MEK and Toluene. **CITRA-SAFE[®] (Deodorized)** is made especially for surface preparation, general solvent cleaning, and cleaning prior to sealing. It is literally a biodegradable solvent replacement for mineral spirits, thinners, and chlorinated solvents. The use of **CITRA-SAFE[®] (Deodorized)** reduces the risks of hazardous chemical spills, eliminates most hazardous waste disposal costs, and eliminates the health hazards associated with traditional solvents.

CITRA-SAFE[®] (Deodorized) enjoys the following specifications:
