TEKSOL® EP

TEKSOL® EP is an ultra-safe technical solvent designed for precision cleaning in a variety of industrial applications where a residue-free surface is required.

TEKSOL® EP reduces the risks and costs of cross-contamination from hazardous solvents because **TEKSOL® EP** contains no Trichloroethylene, Perchloroethane, Methylene Chloride, or other chlorinated or halogenated solvents.

TEKSOL® EP's responsible formulation represents a major improvement in employee safety, as well as environmental impact. **TEKSOL® EP's** "no-residue" formulation and powerful cleaning action make it the safer alternative for:

- Cleaning brakes and other automotive applications
- Cleaning motors, switches, relays, and other electrical applications
- Cleaning circuit boards and other electronic components
- Many other precision-cleaning applications

TEKSOL® EP enjoys the following specifications:

U.S. NAVY – NAVAIR

- TEI 343-2273-93 – Wipe solvent substitution for Freon 113 and 1,1,1 Trichloroethane

U.S. ARMY

- TB 43-0135 – Recommended substitute for ozone depleting substances used on communications-electronics equipment

WESTINGHOUSE

- M53516

U.S. DEPARTMENT OF DEFENSE

- Military Specification MIL-C-81964A – Avionic Cleaner

Physical/Chemical Characteristics

Flash Point: 112°F

Vapor Density: >4

Vapor Pressure (mmHg @ 20°C): <2

Initial Boiling: 310°F

Evaporation Rate (n-Butyl Acetate= 1): .3

Volatility: 100%

National Stock Number: 6850-01-378-0650
